STUDIES AND EDUCATIONS

Industrial Engineering in Computersciences sep 2017 – jul 2020
UGent, Gent

I studied Industrial Engineering in computer science at university of Ghent for 3 years where I developed my programming skills. The programming courses themselves were no problem for me, but where I struggled were the theoretical exams. That is why I eventually decided to switch to a different specialization.

Applied Computersciences sep 2020 – today
HoGent, Aalst

At the moment I am studying Applied Computersciences at HoGent Aalst. I am in my third year of Mobile & Enterprise Development. This suits me a lot better, and here I can perfect my skills.

COMPUTERSKILLS

Word		React	
Excel		Node.js	
Powerpoint		SQLServer	
Java			
HTML			
CSS			
JavaScript			
MySQL			
Linux			
GIT
