STUDIES AND EDUCATIONS

Industrial Engineering in Computersciences   sep 2017 – jul 2020
UGent, Gent

I studied Industrila Engineering in computerscience at university of Ghent for 3 years where I developed my programming skills. The programming courses themselves were no problem for me, but where I struggled were the theoretical exams. That is why I eventually decided to switch to a different specialization.

Applied Computersciences   sep 2020 – heden
HoGent, Aalst

At the moment I am studying Applied Computersciences at HoGent Aalst. I am in my second year of Mobile & Enterprise Development. This suits me a lot better, en here I can perfect my skills.
